Tribal Enrollment and Genetic Testing Resources

When the NCAI Policy Research Center began developing this resource guide, tribal leaders asked many questions such as, "What is genetic testing? What are good sources of information about genetic testing? What kinds of DNA testing can we use for tribal errollment? How do we respond to individuals claiming tribal membership based on DNA testing. The resources below were developed for provide tribal leaders with more information on genetic testing. These are overeign nations and so will decide their own views on genetic testing. These resources provide install actual to tribal enrollment. Tribes are sovereign nations and so will decide their own views on genetic testing. These resources provide resting a testing the source provide tribal leaders of the source provide their and the source provide tribal leaders of the source provide tribal leaders of the source provide tribal leaders.

for Tribal Enrollment: A summary handout providing a quick overview of relevant issues and explanation of different types of genetic testing.

the Testing: A paper providing a more in-depth discussion of the use of genetic testing in tribal enrollment, including case studies from tribes.

A paper providing background information on different ways tribal nations determine enrollment
